FF conference

'Implementing Fieldbus'

This Foundation™ Fieldbus End Users Council Australia (Inc) seminar is a major event which brings together international experts to present their experience around the practical theme of "GET SMART – implementing fieldbus". The line up of International speakers must rank as one of the best ever. The presentations cover a diverse subject range including;

- **Openness in Hybrid Control (HSE)**
- **FF Commissioning Practices**
- **Fieldbus Foundation – Future Technical Directions**
- **Online Performance Monitoring**
- **Asset Effectiveness & Savings**
- **Redundant FF H1 Segments**
- **Plant Asset Management**
- **Innovative Physical Layer Design**

Foundation fieldbus is the next quantum leap in DIGITAL Instrument Technology. It has the potential to provide huge savings and gains in the efficiency of a plant. Come along and reap those benefits - networking and learning from some of the most respected Foundation fieldbus experts in the world.
