

## FOUNDATION™ Fieldbus End Users Council Australia

# JUMP ABOARD 2005

**FF-EUC Aus Inc. Conference**  
**Melbourne, Victoria – 14<sup>th</sup> September**  
**Perth, Western Australia - 16<sup>th</sup> September**

## “GET SMART - Implementing *Fieldbus*”

The Foundation™ Fieldbus End Users Council (EUC) Australia (Inc) conference will be a major event which brings together international and local experts to present their experience around the theme of "**Implementing *Fieldbus***". This year the FF-EUC will present the Jump Aboard conference speakers in Melbourne and Perth together with a vendor exhibition.

The plan is to have the Speakers deliver their presentations at both venues – Melbourne (Wednesday 14<sup>th</sup> Sep) and Perth (Friday 16<sup>th</sup> Sep). Last year the feedback from speakers, delegates and vendors was that it was the best Foundation Fieldbus conference they had ever attended – we hope to hold to that level again this year.

Some of the subjects for paper consideration will include :-

- Design and Installation - case studies
- Smart maintenance concepts and strategies using fieldbus
- Operational experiences of fieldbus systems
- Centralised maintenance - integrating Foundation fieldbus worldwide
- Multiple fieldbus integration on a single site
- Fieldbus and Advanced Process Control - flexible function blocks
- Plant Asset Management implementation advantages
- Plant upgrades – legacy 4-20mA to fieldbus
- Integration of HSE fieldbus to Enterprise-wide systems
- Documentation experience for fieldbus systems
- Putting together a business case for the use of a fieldbus
- Fieldbus training and “gaining the competencies”

The FF End User Council encourages papers that extend the body of knowledge in the installation and application of Fieldbus technology.

### Exhibition

A tabletop exposition will be held as part of each of the conference venues to provide an opportunity for manufacturers to display their range of fieldbus products or services to conference delegates. More details for vendors are available on the End User Council website at the link below.
